1. The main concern(s) with government regulation of blockchain is/are:

1 / 1 point

- ☐ New rules and regulations can have unintended consequences that stifle innovation.
- ☐ Governments in different jurisdictions have been uncoordinated in their approaches to regulation.
- ☐ Governments represent powerful incumbents who may seek to control or twist the technology to serve their interests.
- ☒ All of the above

Correct

You will learn more about these challenges in our next Module on *Blockchain Implementation Challenges* (see "Challenge 3: Governments Will Stifle or Twist It").

2. What category of stakeholders is the Chamber of Digital Commerce?

1 / 1 point

- ☐ Bank/financial institution
- ☐ Government
- ☒ NGO
- ☐ Academic institution

Correct

The Chamber of Digital Commerce is an American advocacy group that promotes the emerging industry behind blockchain technology. According to its founder, Perianne Boring, the organization is "open to anyone who is committed to growing this community."

3. More so than other stakeholder groups, users of blockchain technology are directly concerned with: (Select all that apply).

1 / 1 point

☒ Security

Correct

For users, it is important that a blockchain is secure.

☒ Privacy

Correct

Users care about their privacy when using blockchain technology.

☒ Identity

Correct

It is important for users to understand the identity setup of a blockchain.

☒ Long-term viability

Correct

Users care about the long-term viability of the technology.
